Eyedropper App Mac To Get Color Number

Windows only- Instant Eyedropper, a free system tray utility, is a color-finder's best friend... This Color Picker does not have the eye-drop Aug 04, 2016 In addition to the eyedropper tool, the app features a "color studio" for mixing, testing, and visualizing hues on interiors, fabrics, and 3D materials. Oct 05, 2012 Review title of Tyee It is a color picker. But I was looking for an app that has the eye-drop tool to grab the color from a different window, and then paste the color in a paint app that I have.. Simply pick up the app's icon from your system tray, drag it toward the color you want to find, and a.
